

## CASE CLARITY

---

### WHEN THE STAKES ARE HIGH, THERE'S NO ROOM FOR MISUNDERSTANDINGS

Lightfoot's Case Clarity group gives our clients an edge during complex litigation matters. It provides specialized litigation technology services for developing clear key messages tailored for variety of audiences — judges, juries, internal stakeholders — and managing all of the information for a case. The group has both the trial experience and technical knowledge required to arm our lawyers with strategies to be successful during any phase of litigation.

We offer clients a dedicated in-house litigation support team that is involved in cases from the very beginning. Unlike a third-party vendor, our Case Clarity group is not one-step removed from what is going on with the matter. They are working from the inside and are clear on the client's goals and our strategies from the outset. Because of this, the group can adapt on-the-fly as circumstances change — a common occurrence in the fast-paced world of litigation.

## **LITIGATION SUPPORT SERVICES THAT CREATE A CLEAR, COMPELLING CASE NARRATIVE**

The Lightfoot Case Clarity group helps our lawyers communicate effectively during any phase of litigation — depositions, hearings, mediations, arbitrations or trial. They make complex ideas simple, presenting evidence and facts using tools such as:

- Multimedia demonstratives
- Interactive presentations
- Evidence and factual analysis
- 2D and 3D animation
- Concepting and design of infographics
- Videography and video editing

## **CASE MANAGEMENT THAT GETS THE RIGHT INFORMATION TO THE RIGHT PEOPLE**

Information wins cases. Lightfoot's Case Clarity group specializes in providing lawyers with the exact information they need, exactly when they need it. Our secure case management platform, The Lightfoot Cloud, helps our trial teams stay efficient when thousands of documents are in play. Our case management services include:

- A secure document collaboration and communications platform
- Document review and production services
- E-Discovery and metadata analysis
- Photographic and videographic forensics
- Custom application development for desktop and mobile
- Custom case budgeting platform
